## CUBAN SYMPATHIZERS.

Those in the United States Must Be Very Careful.

WHOLE SAM IS ON THE LOOKOUT

For Filibustering Expeditions Which It Is Hoped Will Be Fitted Out on Our Shores to Aid the Cuban Movement.

Washington, June 12.—Acting Secretary McAdoo of the navy department says that the instructions sent to the commodore of the cruiser Raleigh for his guidance when on patrol duty off the Florida coast were of the most comprehensive kind and provided for a full and strict enforcement of the neutrality laws.

The Raleigh probably will go first to Key West. This is the only port on the Florida coast where a vessel of her draught can safely enter. She then will make a thorough patrol of the coast line and to render it more difficult for a filibustering party to get away, the cruiser's steam launches and small boats will be manned wherever it is necessary to look into narrow inlets and passes for light draught schooners and yachts, which are the favorite means of transportation of the filibusters.

With Spanish men-of-war lying off the Florida coast outside of the three-mile limit, and the Raleigh and her boats sweeping the inside waters, the overenthusiastic Cubans and their American sympathizers who undertook to drive the United States into trouble by using Florida as a base of hostile operations against the government of Cuba are likely to be repressed with a strong hand.

The position of the administration is that they must make all honorable efforts to prevent the abuse of its territory in this way, and if the measures already adopted are not sufficient to secure the enforcement of the neutrality laws to a degree that we have ourselves insisted upon when our own interests were concerned, then active steps may be taken to move upon the people who have laid themselves open to prosecution by organizing hostile expeditions and taking in illegal ways the warfare on a friendly nation.

Laws Must Be Observed.

Washington, June 12.—The following letter has been sent to all collectors of customs on the coast from New York to Rio Grande:

TREASURY DEPARTMENT, OFFICE OF THE COMMISSIONER, WASHINGTON, June 11.

To Collectors of Customs and Others: It is a matter of rumor that at various points in the United States attempts are being made to equip and arm vessels and by other illegal measures, to aid the filibustering movement in the island of Cuba.

While this department has not been furnished with tangible developments of such rumors, it deems it of great importance that no possible opportunity be given for the commission of the crime of the United States in any respect fallen short of its full duty to a friendly nation.

Collectors of customs for the several districts between New York and Brownsville are especially enjoined to see to it that the neutrality laws of the United States, particularly sections 558 and 580 of the revised statute, are carefully observed.

S. W. KILPATRICK, Acting Secretary.

AFTER TWO OHIO MEN

Were Charged With Furnishing Green Goods and Counterfeiting.

PERRY, O. T., June 12.—United States marshals of Oklahoma left yesterday for Ohio armed with warrants for two manufacturers for counterfeiting. The names are withheld.

One of the firms is located at Troy, O., and the other at Cleveland, and they make a business of furnishing counterfeiters' goods and green goods. It is said that they have formed partnership with numerous counterfeiters and green goods men in Oklahoma to furnish material for an interest in the dividends. They have sent men to the territory to manage their business, and some of these are now under indictment for counterfeiting.

United States grand jury here, and the members of the factories were indicted.

WAS SORRY FOR HER.

Minister Has a Catty Experience With the Lower Class at Cleveland.

FRANK, O. T., June 12.—Rev. James Hudson, a Universalist minister at Atica, is locked in his room and closely watched to prevent him committing suicide. Last week he went to Cleveland to attend the national Sunday school convention. He made a round of the drive and met a dashing member of the demimonde and went to her apartments. He expressed pity for her and also drank wine with her. When he awoke next morning the woman and 140 were missing. Hudson had a similar experience a year ago.

HEALTHY BROTHER BROKEN.

OHIO, June 12.—Two inches of rain has covered the entire state. Fields of grain which had been so parched that a match would have kindled a serious conflagration, have revived and will in most cases make a full crop. The growth has been something remarkable, and most fields might be harvested, if matured, now. Rivers and irrigation ditches are running full, and crops can be made without further rain during June.

The Wounded Princeton Students.

PRINCETON, N. J., June 12.—There is no change in the condition of Fred Oll and Garret Cochran, the students who were shot Saturday night. The attending physicians predict the recovery of Cochran, but express anxiety for Oll. He will return in October. The Essex sailed from Fortress Monroe to New York.

Treating Ship Sails.

WASHINGTON, June 12.—The training ship Monongahela left Annapolis yesterday for a cruise with the naval cadets. They will go to Funchal, Madeira, Rio de Janeiro, and if not to some convenient point in the Azores islands. She will return in October. The Essex sailed from Fortress Monroe to New York.

Colombus, 19; Kenton, 5.

Kenton, O., June 12.—The visitors bunched his while Kenton bunched errors, so that the Capital City boys had an easy time winning. Readio for Columbus gave way to Conover in the eighth inning. The score was 13 to 9 in favor of Columbus.

## MR. HARMON SWORN IN.

New Attorney General Takes the Oath of Office.

AND ATTENDS CABINET MEETING.

The New Member Received a Very Cordial Welcome From His Associates.

Known Formerly by the Name of Secretary Carlisle—Will Not Remove His Family to the Capital Until Fall.

WASHINGTON, June 12.—Judge Harmon, the new attorney general, arrived in the city yesterday and drove to the Arlington hotel. Afterward he proceeded to the state department, where he took the oath of office as head of the department of justice, before Justice Harlan of the supreme court, shortly before 11 o'clock.

Then, accompanied by Mr. Olney, he walked over to the White House to the cabinet meeting, where he was formally introduced to his associates in the cabinet by Secretary Olney, his predecessor.

Attorney General Harmon's welcome was a cordial one, but he was especially cordial to Secretary Carlisle, who was the only cabinet officer previously acquainted with him.

After the adjournment of the cabinet Secretary Olney and the new attorney general lunched together and later went to the department of justice, where the assistant attorney general, the solicitor general and other prominent officials were presented to their new chief.

Mr. Harmon will return to Cincinnati in a few days to close up some business matters. This will occupy him about two weeks, when he will return here to remain during the summer, with short visits to his home. He will mainly be in the city for the present, and will not take up his residence here until autumn.

MINISTER CONFESSES.

The Presbyter Does Not See It That Way and Hopes Him.

PITTSBURGH, June 12.—When the Pittsburgh presbytery assembled yesterday Rev. George H. Sheldrake, D. D., was summoned for trial. He did not appear, but sent a long letter explaining his case. He admitted he committed adultery with his housekeeper, but said he had entered into a contract to marry her as soon as he could get a divorce from his wife, who is now working on a Chicago paper. He thought that under the circumstances his wrong should be excused.

The presbytery, however, took this as a confession, and deposed him from the ministry and excluded him from the communion of the church.

His wife, who is now working on a Chicago paper, He thought that under the circumstances his wrong should be excused.

He was born in England, came to this country 18 years ago, did missionary work through the south and has completed his education in Pittsburgh, Chicago, Cincinnati and Toledo. He is now living in Cincinnati.

BAD MEN GET TOGETHER

And as a Result One Is Dead and the Other Is Dying.

SEBASTIAN, Ky., June 12.—News came here from Beaver, Floyd county, that John Ambury and a man named Martin engaged in a battle at the home of Ambury, near Beaver, Floyd county, Ky., which resulted in the death of Martin and the probable fatal wounding of Ambury. The men had long been enemies in the neighborhood and they had been enemies for some time. Martin went to Ambury's house with revolver in hand and ordered him out. When Martin refused to leave, Ambury opened fire and the duel followed.

TEN BODIES RECOVERED.

Fifty Entombed Miners Taken Out and Reinterred.

BERLIN, June 12.—The fire in the mining pit near Antonshuetten, Prussian Silesia, is still raging, but its extension to other parts of the mine has been prevented. Fifty of the entombed miners were taken out unconscious during the night, but all of them were resuscitated. Ten dead bodies were also taken out and 15 others are missing. It does not appear that there were as many men in the pit as was at first reported.

A Terrible Love War Was Won.

OSTERVILLE, Mass., June 12.—Henry Litch, a German laborer, 50, who has a wife and three children, became involved with Lizzie Cohen, 18, and while on her way to school he murdered her and then committed suicide because his love was not reciprocated.

Dispute Ends in Murder.

HUNTINGTON, W. Va., June 12.—Jacob Strollings and Harvey Cohen, two prominent farmers of Logan county, renewed a long standing dispute at Crowleys Creek. Strollings fired at his opponent, killing him instantly, and surrounded the authorities.

## SLEEP and REST for Baby.

Are out of the question when tortured and disfigured with Eczema.

It is the cause of more intense suffering than all other skin diseases combined.

Tender babies are among its most numerous victims.

They are often born with it.

Most remedies and the best physicians generally fail even to relieve.

If CUTICURA did no more than cure Eczema, it would be entitled to the gratitude of mankind.

It not only cures but

A single application is often sufficient to afford instant relief, permit rest and sleep, and point to a speedy permanent cure.

CUTICURA WORKS WONDERS because it is the most wonderful skin cure of modern times.

Operators Combine.

WELLSVILLE, O., June 12.—Capitalists representing the coal interests of Jackson county have been in session here several days, and announce the formation of the Jackson County association which will hereafter handle the output of the entire county. The new association is capitalized for \$5,000,000. Its headquarters will be in Wellsville.

Bloodhounds Tracking Robbers.

YOUNGSTOWN, O., June 12.—Burglars have been on the safe of the Lowell Milling Company at Lowellville, O., securing away money and checks. Payments on the latter have been stopped. The robbers were traced for two miles by a trail of blood and are now being pursued by bloodhounds.

UNCLE SAM

May Get After Muncie's Mayor for Stopping the Mail.

The city of Muncie, Ind., through Mayor George W. Cromer, yesterday caused the delay of U. S. & W. mail train at that place and there are prospects that serious trouble will result. Last Friday a U. S. & W. passenger train collided with the city patrol wagon, instantly killing the horse. The driver and two policemen made miraculous escapes by jumping.

Mayor Cromer had a warrant prepared for the arrest of the engineer, Lewis Fisher, of this city, and when the train pulled in yesterday afternoon, a policeman arrested Fisher, taking him from the engine to police headquarters, where he pleaded not guilty to the charge of fast running, and furnished \$200 bond. The train was delayed a half hour.

AMONG THE RAILROADS.

THE P. A. & W. RAILROAD.

Since the P. A. & W. has passed under the control of Calvin S. Brice, the prospects for this line are very gratifying. This morning about forty unemployed men from Lima and Delphos applied at the shops here for work. It was quickly given out that the new owner proposed to completely overhaul the road and put it in first class condition. The section gangs, which heretofore comprised two or three men to each section, were increased this morning to ten each. Work trains will be put on in a few days, the entire line will be ballasted and leveled, bridges repaired and an entirely new system will be inaugurated.

It is stated on good authority that the line will be used as an eastern outlet for the Lake Erie & Western, Findlay, Ft. Wayne & Western, Cincinnati, Hamilton & Dayton, Cleveland, Lorain & Western, and other western roads in which Mr. Brice is heavily interested. It is also likely that connections for St. Louis will be made with the Clover Leaf at this point. An immense lot of improvements are promised, but if the line

is put in first class shape and the shops of the company retained here, Delphos cannot ask more.—Delphos Herald.

CHAMBERS ON THE L. E. & W.

Conductor E. C. Sage and brakeman L. H. Berry, of the L. E. & W. have been released from the service of that company for some trouble between the two men which is alleged to have occurred at Sandusky recently.

Conductor McComb, of the Minister branch, has been transferred to Sage's car on the east end and conductor Tom Sticht has been given the Minister run.

NOTES.

Conductor Grimsley, of the Ohio Southern, is on Conductor Demag's run.

Engine 104, of the L. E. & W., is being overhauled and will be on the road again in a few days.

Conductor Thos. Tynes, of the L. E. & W., is laying off. Conductor J. E. Jendries is running his car.

Engines 30 and 32, of the L. E. & W. are being overhauled at the shops, preparatory to being sent to the P. A. & W. division.

## THE NEW TARIFF VINDICATED.

The comments in the public press

by the enactment of the Tariff Reform

of the United States that the

schedules of the Wilson Tariff act

became operative on August 1, 1894,

as stated in the act itself, but

on August 22, 1894, when it went into

effect by operation of law, show that

an entire ignorance of the real

state of affairs or else a desire to

mislead the reading public. During

the month of August, 1894, prior to

the 25th instant, the only tariff act

that was in effect upon the statute

books was the McKinley act; and, therefore,

as a consequence, duties were

necessarily assessed upon all imports

brought into the country during that

period in accordance with the rates

set forth in the schedules of that act.

When, however, the Wilson act

became a law on August 23, 1894,

those imports upon which particu-

lar importations the schedules of the

new tariff had lowered the rate of

duties saw an opportunity to save

money in case a favorable decision

should be rendered by the courts

upon the question of which of the

two acts was in effect upon the

date of the new act into operation,

and hence their protests were filed

against the classification of their

merchandise under the McKinley act,

and the cases were taken into court,

with the result, as above stated, of

a decision against their contention.

The importers who would have

paid higher duties under the

schedules of the new act, notably

the Sugar Trust of this country,

which, instead of getting the

raw sugar for its refineries free

as under the McKinley act, had

under the terms of the Wilson act

to pay a duty of 40 per cent upon

the value of its raw sugar—of course,

filed no protests and did not carry

the question to the higher tribunals.

No matter how the courts might

have decided the question as to

the date on which the new act went

into effect, it would have made no

difference in the receipts of the

Government from customs for the

twenty-eight days of last August,

as the revenue that would have

been lost upon the merchandise upon

which duties were reduced by the

new act would have been made up

by the new duty on the new act,

and hence did not import very

large difference in the receipts of

the Government from customs for

the twenty-eight days of last

August, 1894.

The allegation, however, that the

customs revenue would have been

larger since August 23, 1894, if the

McKinley act had continued in force

instead of the Wilson act, is not

without any foundation in fact; on

the contrary, the statistics show

that the receipts under the Wilson

act largely exceed those derived

from the latter act, while the

deficit has been correspondingly

reduced. Thus for the month of

May, 1895, the deficit was \$3,256,135,

while for the month of May, 1894,

it was \$6,832,148; and while the

deficit for the month of May of the

present fiscal year up to June 1,

1896, during nine months of which

the Wilson act has been in force,

was somewhat less than \$47,000,000,

the deficit for the same eleven

months of the preceding fiscal year

(during the whole of which period

the McKinley act was in effect) was

over \$70,000,000.

Those unfair partisan critics who

comment upon the Treasury deficit

incurred since the Democratic

Administration came into office

carefully neglect to state that

three-fourths of the whole deficit

since that time has been caused

by the failure of the McKinley

act to produce sufficient revenue

for the Government. The Wilson

Tariff act has already, in the short

space of nine months since its

passage, demonstrated its superiority

## Weak Nerves

Indicate as clearly as any physical

symptoms anything, that the organs

and tissues of the body are not

entirely sound. If the blood is not

entirely sound, if the blood is in a

state of revolt, their complaints are

made to the brain, the king of the

body, through the nervous system, and

the result of the general disintegration

of the whole matter.

The cure for Nervousness, then, is

simple. Purify and enrich your blood

by taking Hood's Sarsaparilla, and

the nervous system will have the

healthful nourishment they crave.

Nervousness and Weakness, therefore,

will give way to strength and health.

This is not a theory but a fact

proven by the voluntary statements of

thousands cured by Hood's Sarsaparilla.

Read the next column.

Hood's Sarsaparilla

One American Boy.

Future boys written to tell young

Americans how they can carve out

fame and fortune for themselves will

undoubtedly claim the story of John R.

Walsh of Chicago. His career is a

standing object lesson on the achievement

that is still possible in this republic.

The opportunities have not all gone by;

the niches are not yet all filled.

John Walsh began as a boy selling

newspapers. At the age of 18 he was

an orphan. He has sometimes said the

best thing that can happen to a boy is to

be left poor and friendless at an early age.

But when he comes to think about it

the successful financier would undoubt-

edly modify that statement somewhat.

While yet a new boy, Mr. Walsh

declared his intention of one day own-

ing three things—a bank, a railroad and

a newspaper. He has been fortunate

enough to gratify all his ambitions, and

he is not yet an old man.

First he sold newspapers on the street,

as thousands of other boys do. Next he

opened a little stand under cover and

kept newspapers and periodicals on sale.

Many persons will remember the little

one-story wooden building near the old

Chicago postoffice before the fire, where

the Western News company was found-

ed, and whence it rose to such great

importance. At length Mr. Walsh became

president of the Chicago National bank

and finally obtained a controlling inter-

est in the Chicago Herald. Here he

proved himself a born journalist in spite

of the fact that he was already a suc-

cessful and famous financier. Whatever

he has undertaken he has driven through

to success. Pluck, foresight, hustle and

dogged determination to succeed have

made him a success.

John R. Walsh wrecked no railroads,

defrauded no creditors and crushed no

rivals by unscrupulous methods. He

gained prestige as a newspaperer be-

cause he was more prompt and accommo-

dating than others. He is as liberal with

his wealth as he is persistent in gaining

it. His success is a thoroughly clean and

honorable one. An example like this

indeed ought to be held up before the

youthful American.

Suppressing a Cuban Rebellion.

Putting down a revolution in Cuba is

a much more serious matter than

Americans are aware of. When it costs

Spain as set forth as follows in The

Review of Reviews. The climate is the

worst enemy of the Spanish soldiers

have to contend with:

By the middle of May the summer heat

becomes oppressive in Cuba, and epidemic

diseases are prevalent. If these conditions

are almost fatal to a soldier, the

soldier himself, it must be remembered that

newcomers from a climate like that of Spain

are almost equally fatal to a soldier.

The result of the daily hardships of common

soldiers is active campaign, the climate

being almost fatal to a soldier, the

soldier himself, it must be remembered that
